

THE DETAILS

Your design workload. Handled.

A senior design subscription for businesses with ongoing brand output.

ONE FLAT FEE. ONE DESIGNER. A QUEUE THAT MOVES.

HANDLED
by *Ästhetik*

Too much design to keep briefing. Not enough to hire in-house.

Handled is built for businesses producing a steady stream of branded work.

Proposals. Presentations. Campaigns. Reports. Sales collateral. Signage. Social content. The work keeps coming, and somebody still has to make sure it looks like it came from the same business.

You send requests through one queue. I design them.
You approve them. The next one starts.

No quoting every job. No re-briefing different freelancers.
No wondering who owns the output. Just one senior designer who knows your brand, at a fixed monthly cost.

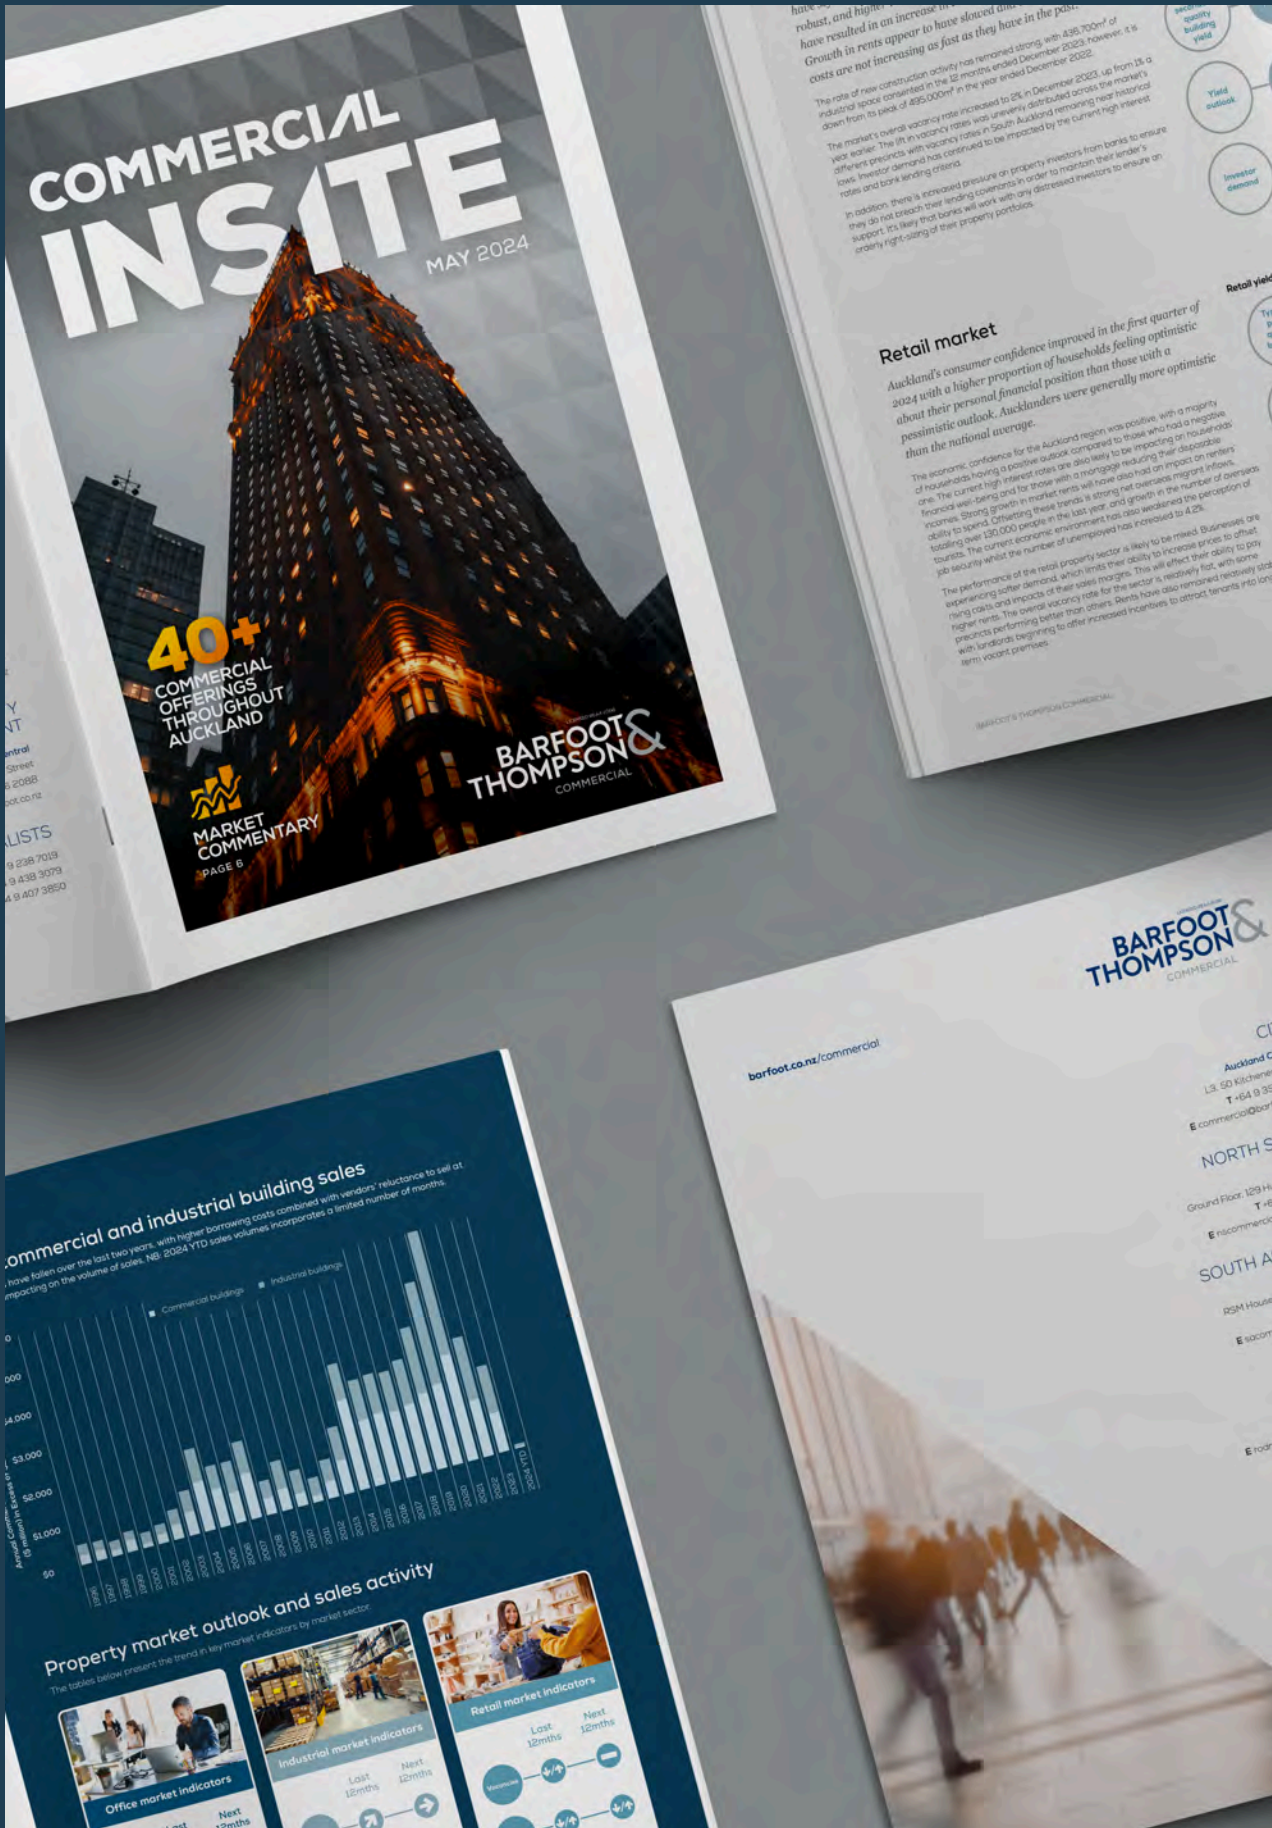

Hi, I'm Rosh. I'm the designer behind Handled, with 15+ years across agency, in-house and independent design across ANZ.

Trusted across brands, teams and industries.

A selection of organisations I've worked with across Handled and Ästhetik Studio.

Why it works

- **You stop starting from scratch.**
I learn the brand once, then carry that knowledge into everything that follows.
- **You deal with me. Every time.**
No juniors. No account managers. No layers between the brief and the work.
- **The work keeps moving.**
One active request at a time, with most everyday jobs returned within two business days.

15+ years behind Handled

Handled is the ongoing design model from Ästhetik Studio, built on more than 15 years working across financial services, property, construction, retail, publishing and major brands.

I keep the client roster deliberately small, with a maximum of five ongoing clients at a time.

Get Fully Handled

The model is simple, really.

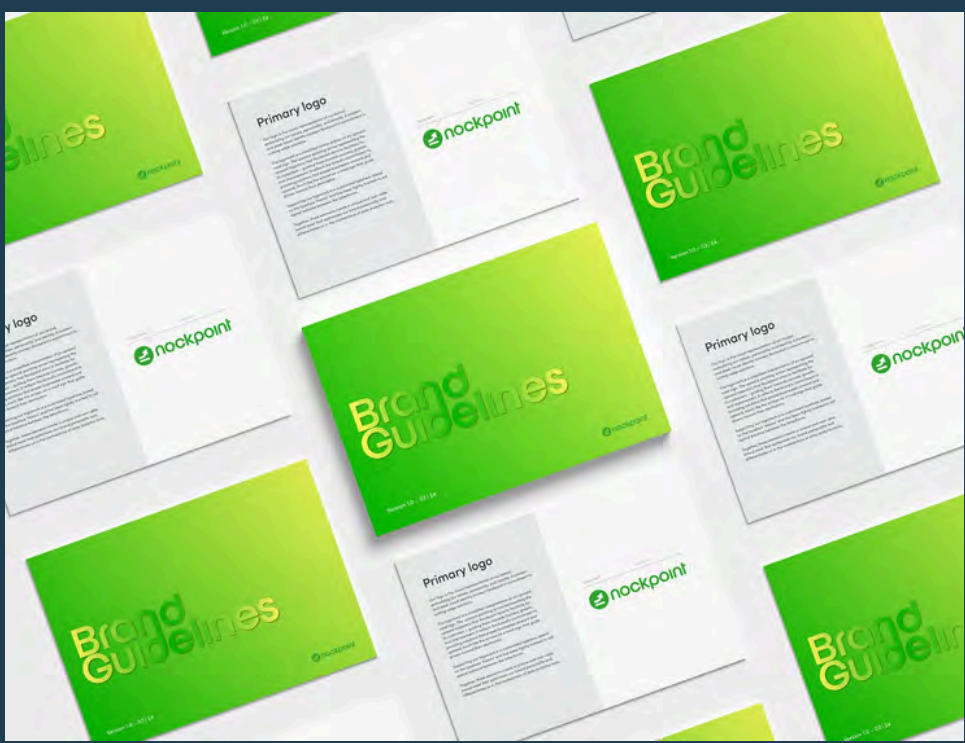

Ongoing senior design support from \$3,000/month

One monthly engagement for the design work your business keeps producing.

I spend the first month building a rock-solid system that makes fast turnarounds and on-brand assets feel seamless.

With a monthly subscription you have access to a designer at all times – without the HR hassle, overheads or constant freelancer struggle.

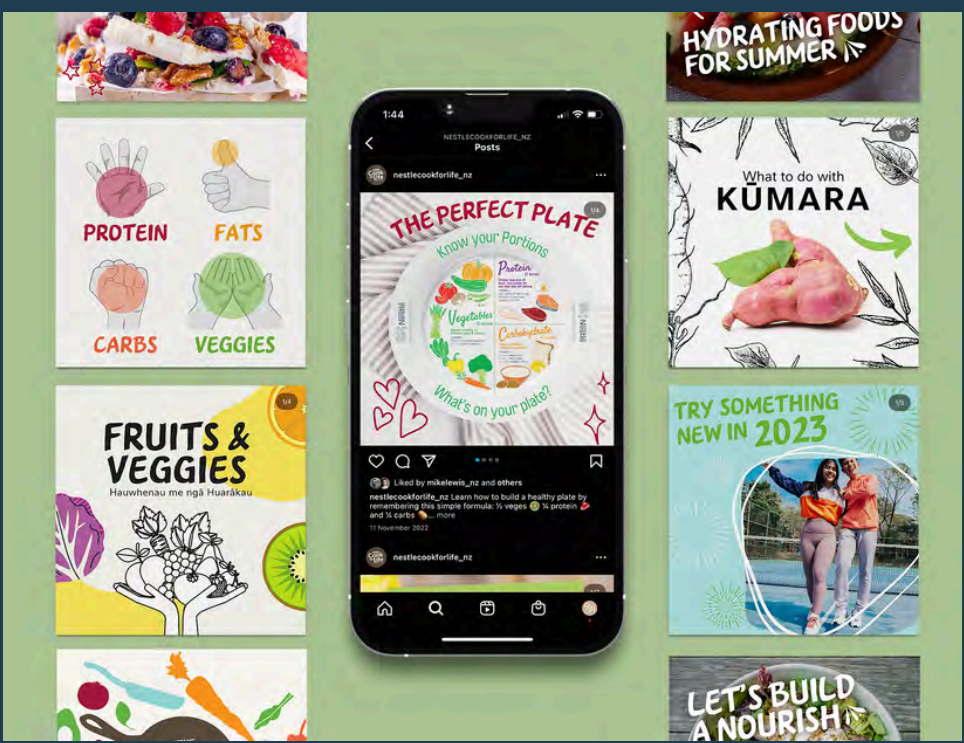

Prices in AUD, excluding GST.

The Handoff (Month one)

I learn the business, review what already exists and establish the working foundations we'll use going forward.

- Brand and existing assets reviewed
- Guidelines clarified where needed
- Core templates and repeat-use assets built properly
- Files and working assets organised
- Request workflow established
- Live production starts from day one

Fully Handled (Ongoing)

- Once the foundations are in place, the rhythm is simple.
- Unlimited requests in your queue
- One active request at a time
- Most everyday requests returned within two business days
- Unlimited revisions within scope
- Direct access to me
- Pause when you need to

If this sounds like a fit...

BOOK A FIT CHECK HERE

Twenty minutes. Tell me what your business is producing, where the workload is getting stuck, and what you need taken off your plate.

I'll tell you whether Handled fits, what the right scope looks like and what it would cost.
